# WELCOME

**ANN HARDY**  
CEO TEC PARTNERSHIP

*Hi, thank you for taking the time to pick up your guide to Grimsby Institute. We hope this will give you an insight to life at Grimsby Institute, from choosing a course and applying, through to college transport, and what to expect once you've arrived on campus and joined us as a student.*

Here at Grimsby Institute, we provide an outstanding range of courses. We aim to do so in a high-quality environment, delivering an excellent outcome for every student, whichever route you wish to take. As a student here, you will gain real-world experience. You will have the opportunity to learn in state-of-the-art facilities, with expert tutors. You will receive the support and guidance to help you realise your full potential.

Whatever your passion, we are focused on making your time with us the best it can be, and supporting you to become the best you can be.

# WHY CHOOSE US?

## QUALITY

- We have industry standard facilities and resources to enhance your learning
- Our tutors are subject experts, and many have real industry experience
- You will train in realistic environments, preparing you for the working world.

## CHOICE

- Our courses cover over 30 career areas with a wide range of subject choices
- We offer full-time vocational courses, A Levels (at Career 6), apprenticeships and T Levels
- You can study courses from Entry Level 3 to Levels 3 and 4.

## EXPERIENCE

- We are focused on making your time with us the best it can be, in, and beyond the classroom
- There is an exciting range of activities to get involved in on campus
- We offer free or subsidised learner-to-campus transport for eligible students.\*

## OPPORTUNITY

- You will be equipped with the skills and knowledge you need in the future
- We have excellent links with local and national employers with global reach
- We offer industry recognised qualifications.

## SUCCESS

- Our students go on to successful careers and top universities
- We have trained apprentices who have gone on to have amazing careers
- Our success stories speak for themselves. Please head to our social media to see up-to-date student case studies and news stories!

## FINANCIAL SUPPORT

- Access our 16-19 Bursary Scheme to help with your studies\*
- Access 16-19 Discretionary Learner Support Fund to help with studies when times are tough\*
- Receive childcare support through the Care to Learn scheme.\*

\*Subject to eligibility

# HERE FOR YOU

It is our priority to create a safe and supportive environment in which our students can thrive. Our Learner Services team are here to help you transition from school to college as smoothly as possible, offering support from your initial application, through to your interview, and once you have enrolled as a Grimsby Institute student.

## CAREERS ADVICE

If you are unsure which course is for you, or are torn between a few different options, our Careers Advisers are here for you. You will benefit from their support until your journey with us ends.

Our experienced Careers Advisers provide personalised, one-on-one consultations to help set you on the right path to meet your goals. You can schedule a meeting with an adviser via email: [careers@grimsby.ac.uk](mailto:careers@grimsby.ac.uk). They are always happy to help!

## SUCCESS COACHES

When you enrol, you'll be allocated a Success Coach, who will be assigned to you all year and there to offer support in areas such as attendance, achievement, and progression.

Our Success Coaches offer tailored individual coaching sessions, allowing them to understand your unique needs and support you as best they can during your journey with us. Serving as a reliable support system for every student, their guidance encourages you to succeed by helping you to overcome any obstacles disrupting your learning experience.

## INCLUSION SUPPORT

The inclusion service is available to all students, offering support and help with:

- Physical disabilities and specified learning difficulties such as ADD, ADHD, Asperger syndrome, dyslexia and other medical conditions, and mental health conditions
- Access to specialist equipment for your course
- Access to support in the wider college environment
- Visual or hearing impairments

You may have needs that are not listed above, in which case please contact us to discuss your individual requirements. We are committed to ensuring every student thrives, so don't hesitate to get in touch via phone: **0800 315002**.

## FINANCIAL SUPPORT – BURSARIES

Many students need some financial help while studying at Grimsby Institute. We have a range of bursaries available including a 16–19 discretionary bursary, vulnerable young person's bursary, free college meals, childcare support, 19+ bursary, advance learner loans bursary and support for Higher Education students, subject to eligibility. Depending on your needs, eligibility and bursary type these may support you with expenses such as travel, kit and equipment, trips, hardship and college meals.

To find out more, please contact our Financial Support team by emailing: [bursary@grimsby.ac.uk](mailto:bursary@grimsby.ac.uk)

or head to our website: [grimsby.ac.uk/support/learner-services](https://grimsby.ac.uk/support/learner-services)

## SAFEGUARDING

Our Intensive Support Team ensures the wellbeing of all students and staff at Grimsby Institute. The team is readily accessible to address any concerns you may have, whether personal, or in relation to the welfare of a friend or fellow student.

Our team is approachable and provides a safe and supportive environment. Whether the challenges are related to bullying, abuse, self-harm, accommodation, or any other concern, we are equipped with the right people who can listen and provide the best advice. Your wellbeing is our top priority, and we are committed to supporting you every step of the way.

You can contact the team via [safeguarding@grimsby.ac.uk](mailto:safeguarding@grimsby.ac.uk) or speak to any member of the team in person.

The team is available via the duty mobile on **07920 860241** if you require immediate advice or support. Alternatively, they can be contacted via Teams on the GY Safeguarding Phone.

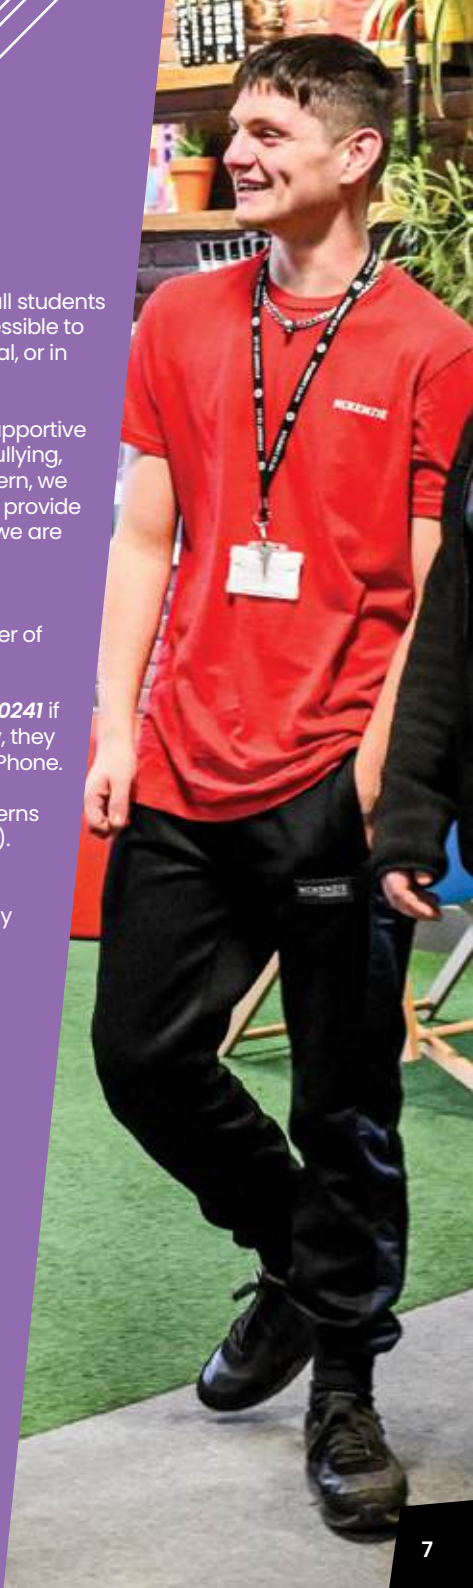

Referrals will not be accepted via email – urgent concerns must be sent to the Safeguarding duty mobile (above).

The team also supports children who are looked after (CLAs), Care Leavers and Young Carers, working closely with external professionals to ensure we have the right support in place to enable progression through both further and higher education.

## COUNSELLING

Here at Grimsby Institute, you can access on-site counsellors who you can talk to when you need extra support. This is a confidential service and covers all aspects of mental health and emotional wellbeing.

Success Coaches can support with making a referral for counselling or the Counselling team can be emailed directly at [woodhousea@grimsby.ac.uk](mailto:woodhousea@grimsby.ac.uk).

# LIFE ON CAMPUS

## **REFECTORY**

Serving up a diverse range of meals, our recently refurbished Refectory located in the heart of the campus is the perfect spot to grab a morning pick-me-up or unwind with a tasty lunch. With meals starting at just £3, our options are not only delicious but also budget-friendly. Our canteen team is friendly, too!

Our menu includes premium sandwiches, wholesome home-cooked meals, freshly prepared salads, flavourful paninis and wraps, comforting jacket potatoes and soups, pizza...and so much more! Vegetarian or vegan? We've got you covered. The same applies to other dietary requirements; have a chat with our team - they will always be happy to help.

## **THE SAMPHIRE RESTAURANT**

We are the proud home of The Samphire Restaurant, a real-life training restaurant, where our talented students showcase their skills in crafting delicious meals.

Savour dishes prepared by some of the region's most promising young chefs and served by our up-and-coming front-of-house talent. You'll discover dishes prepared using some of the best ingredients Lincolnshire has to offer, including superb seafood from the famous docks.

Lunch service is offered three days each week, and we open for Dinner on Thursdays. Our menus are changed regularly, offering a wide range of reasonably priced meals for you to choose from.

## **THE GRADUATE SALON**

Our campus has its own hair and beauty salon, where you can take advantage of fantastic discounts for hair, beauty and holistic professional treatments, whether you are seeking time for relaxation, are keen to keep up with the latest trends, or want to look fabulous for a special night out. Using the highest quality salon services and products, our experienced staff will ensure you leave your appointment feeling refreshed and looking a million dollars. The salon is open during the day and selected evenings.

## **SPORTS CENTRE**

Our Sports Centre offers a fully equipped gym giving you the chance to train and work out, with a reduced membership rate exclusively for students. You can also make the most of our six-court sports hall.

The Multi-Use Games Area (MUGA), located next to the Sports Centre, comprises of artificial pitches designed for students, staff, local sports clubs, and community groups to use throughout the day and evening for sports such as football and hockey.

## **ISPACE**

When you need to escape for some peace and quiet to read or study, iSpace offers a bright and welcoming space, equipped with PCs and printers, perfect for individual or group research and study sessions.

The quirky space is designed for the ideal mix of relaxation and productivity. Whether you're diving into your coursework, collaborating on assignments, or simply unwinding with a good book, our library provides the perfect setting. Grab a computer, or a laptop from the lockers, and make use of the quiet or group study room, or enjoy the 'garden' area and mindfulness room.

With free Wi-Fi available campus-wide, you can work seamlessly from your own devices.

## **PRINTING SERVICES**

Our e-Print facility offers all students a range of convenient services, including assignment and photographic printing, bookbinding, finishing, and stationery. Photocopying services are available in the Learning Centre.

# ENRICHMENT

*During your time as a student with us, there is plenty to do outside of your timetabled hours no matter what your interests. If its something sporty you're looking for, how about yoga, dance, football or netball? We also have a well-equipped college gym. Try your hand at crochet, learn essential life skills, get creative with arts and crafts, sing your heart out on karaoke, or immerse yourself in virtual reality. Maybe you'd like to challenge yourself to complete the Duke of Edinburgh programme, developing new skills and building your confidence and resilience.*

Throughout the year we also have themed weeks, guest speakers, events and workshops offering a range of opportunities to upskill, grow your knowledge, and get involved in fun cross-college activities.

## **MINDFULNESS ROOM**

Within iSpace, our further education learning centre, you will find our peaceful Mindfulness Room, a space to take some time out and have a mindful moment. With a range of resources including mindfulness books, colouring, music and more, it is the perfect place to take a brief retreat from studying for meditation or reflection.

## **THE HIVE**

Be sure to visit The Hive, our welcoming common room. Here, students can relax, socialise, and enjoy a variety of activities... and it's open every day! Whether you're looking to take a break between classes, play a game of pool, or engage in a range of fun enrichment activities, The Hive is a space for everyone to enjoy.

Look out for announcements from your Success Coach about events and activities, and keep up to date with our Learner Services Instagram page: [\*\*@gilearnerservices\*\*](#).

# NEW £5 MILLION ANIMAL CARE TEACHING FACILITY AND VETERINARY PRACTICE

## OPENING SPRING 2025 AT NUNS CORNER

***Grimsby Institute is well underway with constructing a new £5 million animal care teaching facility and veterinary practice at our Nuns Corner campus. Partnering with Topcon Building Ltd, this project aims to redefine animal care education and ensure students are Real World Ready.***

The facility will feature modern teaching spaces, a fully operational veterinary practice, and areas designed for animal welfare, including outdoor enclosures and a dog-walking space. It will replace the outdated Nunsthorpe campus and house various animals, providing hands-on learning opportunities.

Topcon Building Ltd, a local contractor, is leading the construction, which is set for completion by Spring 2025. This development will equip students with essential skills for careers in animal care and veterinary services.

# CAREERS

Your journey is only just beginning while you're here with us as a student at Grimsby Institute. It is our goal to ensure you are equipped with the skills, knowledge and experience to carry with you as you finish your studies and enter the world of work.

**Whether you know exactly where you want to go and what to do, or are still deciding, we will do what we can to help you with your next steps.**

**You will have access to:**

- A stable and structured careers programme, aligned to the Gatsby Benchmarks
- High quality advice about future study options
- A range of activities to enable you to develop your employability skills by meeting with employers and learning about the world of work, as well as work experience opportunities
- A range of opportunities to meet future providers of further, higher and postgraduate education, apprenticeships and training
- One-to-one impartial and confidential guidance meetings with a professional Careers Adviser.

To contact the Careers team phone **01472 31550** or email [careers@grimsby.ac.uk](mailto:careers@grimsby.ac.uk)

# NEXT STEPS

**Once you've successfully completed your course you may be able to progress to the next level, following a satisfactory interview with a Programme Leader. If you are studying on a Level 3 course and are intending to apply for a place at university, Careers Advisers will help you to apply through UCAS. They will also be on-hand to offer advice on progressing to a job or Apprenticeship.**

Grimsby Institute is part of the TEC Partnership, offering you the unique opportunity to progress your studies with high quality degree courses with one of our partners based here in the Yorkshire and Humber region. As you reach the end of your Level 3 course, you might start thinking about going to uni.

**Here on site, at University Centre Grimsby, or at East Riding College in East Yorkshire, you can study degree courses in:**

- Construction & Engineering
- Creative & Digital
- Education & Early Years
- Social Science
- Health & Care
- Business & Management
- Animal Management
- Sport & Public Services

The University Centre Grimsby also offers student accommodation, with several modern halls of residence only a short walk away.

# STUDY OPTIONS

## FULL TIME - VOCATIONAL

### 100% COLLEGE-BASED

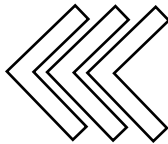

Choosing to study a full-time vocational course will mean you benefit from authentic studios and workshops, passionate tutors with expert knowledge, and genuine support at every stage.

Whether you're studying at Level 1, 2, or 3, you will be working towards a qualification that is career-focused, gaining academic and practical knowledge to open up various progression routes.

We have a huge range of vocational courses to choose from, across a wide range of subject areas. Discover more about the course content, levels of study, and entry requirements on page 14.

## Apprenticeships

### APPRENTICESHIPS

Apprenticeships are a fantastic way of experiencing on and off-the-job training, earning while you learn and gaining skills for life, all at the same time!

With so many people applying for jobs, businesses are always looking for people with real experience – with an apprenticeship, you get that experience while you learn, and you get paid.

Through an apprenticeship, you will acquire a wide range of industry-approved skills and technical expertise in addition to invaluable personal and professional skills.

## T-LEVELS

THE NEXT LEVEL QUALIFICATION

### T LEVELS

### 80% CLASSROOM 20% WORK EXPERIENCE

Expand your horizons and gain the experience that employers look for when it comes to hiring.

A T Level is a nationally recognised qualification. One T Level is the equivalent of three A Levels, so has the same UCAS points value – meaning there is the option to step straight into your chosen career, or continue with an apprenticeship or degree.

The two-year qualification brings the classroom and work placement together, on a course designed in collaboration with the best employers.

The industry focused pathways available at Grimsby Institute are:

- Building Services for Construction
- Digital Production Design & Development
- Education & Childcare
- Health
- Manufacturing Technologies
- Onsite Construction (Brickwork)
- Maintenance Engineering Technologies

You'll complete a 45-day placement to equip you with the skills and real world experience.

# ENTRY REQUIREMENTS

***Entry requirements will vary depending on the requirements of the course you are applying for, and this will be discussed during the interview process.***

Full information about entry requirements can be found under each subject area on our website: [grimsby.ac.uk/school-leavers](http://grimsby.ac.uk/school-leavers)

There is a course for everyone here at Grimsby Institute, and we will provide support to help you enrol on the right course and level for you.

## WORK EXPERIENCE

All Level 2 and Level 3 courses include the opportunity to gain valuable external work experience with an employer in your chosen industry. This hands-on experience is designed to complement your studies, allowing you to apply the skills and knowledge you've gained in a real-world setting. It's an excellent way to build your confidence, enhance your CV, and make industry connections that could lead to future employment opportunities.

Whether you're interested in technology, sports, health, or the creative arts, work experience will give you a head start in your career by offering a glimpse into professional life and helping you to understand what it takes to succeed in your field.

# APPLICATION JOURNEY

## **STEP 1**

Choose your course! Browse this guide and have a look on our website to see what suits you. If you're unsure, book an appointment with our qualified Careers Advisers or, if you're still at school, have a chat with your teachers or careers team.

## **STEP 2**

Come along to one of our Open Events to find out more. This will give you the opportunity to meet our teaching staff and current students, and explore our site to discover more about our excellent facilities.

## **STEP 3**

For North East Lincolnshire schools and academies, apply via [lincs2.co.uk](https://lincs2.co.uk)

Or, for North Lincolnshire schools and academies, apply via [lincs4u.co.uk](https://lincs4u.co.uk)

You can also apply via our website: [grimsby.ac.uk/how-to-apply](https://grimsby.ac.uk/how-to-apply) if you don't have Lincs2 or Lincs4u login details.

## **STEP 4**

Once you have applied we will be in touch to chat about your chosen course.

## **STEP 5**

Once you have accepted your place, you will be invited to a welcome day.

## **STEP 6 ENROL**

Come and Enrol. We will send you an appointment day and time during August to come and enrol.

***It's never too late to apply. It's important to make the right choice for you and your future, and we're always here to help if you need guidance. Contact our Careers Team on 01472 315550 or email [careers@grimsby.ac.uk](mailto:careers@grimsby.ac.uk) if you are looking for some guidance.***

## ***DON'T FORGET***

When applying, please provide your mobile number and email address so that we can get in touch.

# TRANSPORT

*Getting to Grimsby Institute is simple. At the Institute, we believe that it is important that you enjoy your studies and don't have to worry about the ever changing cost of transport. This is where our incredible \*FREE daily bus services and our money-saving transport bursary scheme can help you.*

Anyone aged 16–19 who is studying for a Further Education course at Grimsby Institute is eligible to use our transport service. We run our own fleet of coaches and if you can get to a pick up point on the timetable then you'll be able to travel for \*FREE to and from the Institute. For more information on our bus service, please contact [transport\\_services@grimsby.ac.uk](mailto:transport_services@grimsby.ac.uk)

If you cannot catch one of our own buses, don't worry. If you are 16–18 years old, you could save hundreds of pounds by using the Bursary Scheme. To apply for the Bursary Scheme, please call **0800 315 002** or email Learner Services at [bursary@grimsby.ac.uk](mailto:bursary@grimsby.ac.uk). They will provide you with all the information you need and explain how you apply.

If you live in Lincolnshire and you're not on one of our bus routes, you can apply for subsidised travel with the Lincolnshire County Council Travel Pass. Apply online at [lincolnshire.gov.uk/school-college-transport](http://lincolnshire.gov.uk/school-college-transport) or call **01522 552 222**. Once your application has been approved, you should send your confirmation letter to the Admissions and Finance Officer at Grimsby Institute.

\*FREE and subsidised transport is provided through the TEC Partnership and other government support.

# HOW TO FIND US

**Grimsby  
Institute,  
Nuns Corner,  
Grimsby,  
North East  
Lincolnshire,  
DN34 5BQ**

## VIA CAR

We have great links to national motorways, and onsite parking once you arrive!

## VIA RAIL

Grimsby Railway Station is located around a network of taxi and bus routes, Grimsby is only 10 minutes away if you travel via public transport.

# T LEVELS

# T-LEVELS

THE NEXT LEVEL QUALIFICATION

## WHAT ARE T LEVELS?

*T Levels are nationally recognised technical qualifications worth the same number of UCAS points as 3 A Levels. They tend to follow GCSEs, and are a two-year qualification bringing together classroom study and a work placement. Your T Level will help you step straight into your chosen career, apprenticeship or degree, having gained relevant knowledge and the skills and behaviours sought by employers.*

T Levels provide more academic study than Apprenticeships. You will experience a mix of classroom and workplace based learning, spending 80% of your time at college and 20% of your time developing the skills needed for the workplace.

## **BACKED BY BUSINESS**

***A wide range of leading businesses of all sizes and across different industries helped to shape T Levels. They are now supported by employers to give you the workplace skills you need to succeed.***

Many employers support progression of T Level students within their business, whether that's moving onto an apprenticeship or starting another role.

## **WHERE CAN T LEVELS TAKE YOU?**

Combining classroom based learning and workplace experience, T Levels put students in a strong position when it comes to deciding on next steps by:

- Offering broad exposure to an industry and the many different roles it offers, ideal for those who are unsure exactly what job or role they may be interested in
- Providing a head start on the skills needed for the workplace with an exciting 45 day industrial placement
- Opening doors to skilled employment, university or an Apprenticeship. One T Level has the equivalent of three A Levels, so has the same UCAS points value.

## **AT GRIMSBY INSTITUTE, T LEVELS ARE AVAILABLE IN THE FOLLOWING AREAS:**

- Building Services for Construction
- Digital Production Design & Development
- Education & Childcare
- Health
- Manufacturing Technologies
- Onsite Construction (Brickwork)
- Maintenance Engineering Technologies

# NEW CURRICULUM AREA FOR 2025

## FORENSICS, CRIME & HUMANITIES

### ***Our new curriculum combines A Levels and vocational study.***

Designed with your future in mind and in sight, it is a great option if you would like to combine hands-on courses with theory based subjects. The pathways are carefully designed to ensure that, after qualifying, you'll be a great candidate for university or employment in your chosen field. With highly-experienced industry professionals leading your curriculum area, you will also receive support through related enrichment activities, along with the opportunity for national and international visits that link to your pathway.

The two-year study programmes include tutorials, project work, enrichment sessions, leadership tasks, career-focused visits and trips, as well as work experience.

For either pathway, students must have a minimum of 5 GCSEs at Level 4 (C) or above including English and Maths.

## NEW PATHWAYS

### CRIMINAL AND SOCIAL STUDIES

- A Level Sociology
- Diploma in Criminology
- BTEC Law

### FORENSIC AND CRIMINAL INVESTIGATION

- Extended Diploma in Forensic and Criminal Investigation

## DISCOVER MORE:

Visit [grimsby.ac.uk/school-leavers](https://grimsby.ac.uk/school-leavers) for more information.

## APPLY NOW:

For North East Lincolnshire schools and academies, apply via [lincs2.co.uk](https://lincs2.co.uk)

Or, for North Lincolnshire schools and academies, apply via [lincs4u.co.uk](https://lincs4u.co.uk)

You can also apply via our website: [grimsby.ac.uk/how-to-apply](https://grimsby.ac.uk/how-to-apply) if you don't have Lincs2 or Lincs4u login details.

# APPRENTICESHIPS

***At the Grimsby Institute, you can embark on a journey of hands-on learning and practical experience through Apprenticeships. These structured training opportunities combine on-the-job training with theory, equipping you with the skills and knowledge needed to succeed in your chosen field.***

Our Apprenticeships are tailored to meet employers' needs, offering a blended learning approach that includes both day release college sessions and workplace training.

## **APPRENTICESHIPS ARE AVAILABLE IN THE FOLLOWING SECTORS:**

- Education and Training
- Construction
- Engineering and Manufacturing
- Service Industries
- Transport and Logistics
- Business and Management

For a full list of vacancies, visit:

***[apprenticeships.grimsby.ac.uk/vacancies](https://apprenticeships.grimsby.ac.uk/vacancies)***

Our Apprenticeships are continuously evolving as we meet employer needs. Please visit our website for up-to-date listings of Apprenticeships and vacancies available:

***[apprenticeships.grimsby.ac.uk](https://apprenticeships.grimsby.ac.uk)***

# WHAT ARE THE BENEFITS OF APPRENTICESHIPS?

## **HANDS-ON EXPERIENCE**

Apprenticeships provide practical, on-the-job training, allowing apprentices to gain valuable experience in a real work environment. This experience is highly valued by a wide range of employers.

## **SKILLS DEVELOPMENT**

Apprenticeships offer structured training programmes that are designed to develop specific skills and knowledge relevant to the industry. This enables apprentices to acquire a wide range of industry approved skills, from technical expertise to enable success in the field, to invaluable personal and professional skills such as communication, teamwork and time management.

## **EARN WHILE YOU LEARN**

Apprenticeships are paid positions, providing the opportunity to earn a salary while they learn. This can make apprenticeships an attractive option for individuals who want to avoid student debt while gaining valuable qualifications.

## **CAREER PROGRESSION**

Completing an apprenticeship opens up a range of career opportunities. Many apprentices go on to secure permanent employment with their apprenticeship employer, while others use their apprenticeship as a stepping stone to further education or higher-level qualifications.

# HOW CAN I APPLY?

In order to do an apprenticeship, you need a job as well as a training provider or college. You can apply for a current apprenticeship in the following ways:

1. **You can apply for a current apprenticeship vacancy via our website: [apprenticeships.grimsby.ac.uk](http://apprenticeships.grimsby.ac.uk)**
2. **You can contact employers with your CV to ask if they would be willing to take you on as an apprentice.**

If you are successful, you can email us via [myapprenticeship@grimsby.ac.uk](mailto:myapprenticeship@grimsby.ac.uk)

# FOUNDATIONS

***The Foundation programme at Grimsby Institute enables you to settle into college life. It introduces our ways of working, IT systems and timetables and allows you to become familiar in the new environment at your own pace, enabling you to become more confident and relaxed within a new educational setting. Group sizes are small, and support is focused on preparation for your future.***

## WHAT DOES THE PROGRAMME INCLUDE?

Our pathways Year 1 programme is designed around six projects, maths and English, with the sole aim of developing and improving independence skills, life skills, travel training, communication, teamwork, self-management and personal care. Ambition, future plans and targets are also explored and developed within this programme. This includes developing links with other providers and participating in external challenges and events within the local community.

Independence skills are practical sessions held in a bespoke house on college grounds, which has a working kitchen, laundry room, bedroom, bathroom and lounge.

Healthy eating, exercise and fitness are actively promoted through various sporting activities undertaken on a weekly basis, which are tailored to everyone's specific needs. Sports include basketball, boccia, table tennis and badminton, in addition to gym sessions within our Sports Centre. We also visit and use other sports facilities and leisure centres within the local community.

During the second year you will experience a variety of pathways at Grimsby Institute and gain accredited and non-accredited qualifications. The pathways include Media, Health and Social Care, Performing Arts, Automotive, Hospitality, Childcare and more, helping you to make further choices and options for your next steps. Following two years of Foundation Learning, you will enter mainstream courses or continue onto the Supported Internship programme.

**Feel free to contact our Foundations Team on 01472 311222 for more information and to discuss your individual requirements.**

## SUPPORTED INTERNSHIP PROGRAMME

The Supported Internship programme ensures that you have the right support to begin life as a professional in your chosen career. This is an ideal exit course for those looking for an opportunity to gain vital work experience within a range of vocational positions, with excellent future prospects.

You will receive incredible job coach support while on a 260-hour work placement, with a personalised programme of learning which is tailored to suit your individual needs and career aspirations.

The course includes maths, English and ICT, as well as customer service, personal development and employability skills to prepare students for the workplace. The Supported Internship programme helps you improve your skills and confidence so that you can find regular paid or voluntary work.

# ANGLIAN WATER ALLIANCES

## CONSTRUCTION OPERATIONS

### COURSE OPTIONS

LEVEL	COURSE
Level 2	Anglian Water Alliances

**This pre-apprenticeship skills programme works in collaboration with Anglian Water and its Alliance partners, providing a fully employer supported multi-skilled construction course.**

This programme has been designed with the specific aim of attracting new talent into the utility sector, enabling you to ultimately work for one of the Alliance's companies as an Apprentice.

The programme is very hands-on, you will gain knowledge of a wide variety of subjects including; health, safety and welfare in construction, principles of building construction information and communication and construction site protection barriers. If all of the criteria is met for this course our students are guaranteed an interview with Anglian Water.

### WHAT WILL I LEARN?

- Principles of building construction
- Health and safety
- Domestic drainage
- Critical thinking and problem solving
- Time management
- Constructing foundations, slabs and concrete paths.

### WHAT NEXT?

#### CAREER OPPORTUNITIES:

Surveying  
Health and safety  
Domestic drainage.

#### UNIVERSITY AND FURTHER STUDIES:

There is the added bonus that all students who successfully complete the Level 2 course will be guaranteed an interview for an apprenticeship with Anglian Water Alliances.

# ANIMAL CARE

## COURSE OPTIONS

LEVEL	COURSE
Entry Level, 1, 2, 3	Animal Care

**Our Animal Care courses offer hands-on experience delivered alongside theory to prepare you for work in a range of roles within the industry.**

The animal care department is equipped with a range of professional working environments, including a wide range of different animals – both indoors and outdoors.

Our facilities include a mock veterinary practice room, commercial dog grooming parlour, commercial canine day kennels and cattery, and an extensive collection of animals within our animal house facility.

We also provide the opportunity for you to take part in enriching trips and visits. Past trips have included industry days working as zookeepers and visits to farms, zoos and conservation areas.

## WHAT WILL I LEARN?

- Caring for a wide variety of animal species
- Animal health and welfare in accordance with legislation
- Animal anatomy and physiology
- Animal health and behaviours.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Animal rescue  
Veterinary nursing  
& Nursing Assistant  
Animal training  
Animal rescue  
Zoo/Pet Shop management.

### UNIVERSITY AND FURTHER STUDIES:

Animal management  
Animal health and welfare  
Veterinary nursing  
Animal conservation  
Animal behaviour welfare  
Dog grooming  
Ecology.

## NEW ANIMAL CARE CENTRE OPENING SPRING 2025

**The £5 million animal care facility at Nuns Corner will transform animal care education in Grimsby.**

# ANIMAL NURSING ASSISTANT

## COURSE OPTIONS

LEVEL	COURSE
Level 2	Animal Nursing Assistant

**This course is very hands-on and will give you the chance to get up close and personal with a wide variety of animals.**

You will learn a range of skills which will enable you to work in a veterinary environment, including; animal health, nursing, pharmacy, welfare, anatomy and physiology and feeding and husbandry.

You'll hear from guest speakers from across the industry and specialist areas such as exotics specialists and veterinary professionals who will share their wealth of experience and knowledge with you.

**This course is available for students aged 17+.**

## WHAT WILL I LEARN?

- Examining the signs and symptoms of pathogens and disease Infection control
- Identifying accommodation requirements for a variety of animals
- Nutrition
- Anatomy
- Physiology
- First aid and pharmacy.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Veterinary nurse.

### UNIVERSITY AND FURTHER STUDIES:

Why not consider a specialty progression to our Level 3 Animal Care programme

University courses could include veterinary nursing, animal management, animal behaviour, conservation and ecology, or zoo management.

## COURSE OPTIONS

LEVEL	COURSE
Levels 2, 3	Art & Design

**Our courses are designed to give you the knowledge and skills to help you pick what you'd like to specialise in for your future career.**

You will study a range of subjects such as web design, animation, photography, fine art, painting, printmaking, illustration and storyboard design.

Alongside amazing facilities, including a printmaking room, 3D workshop, ceramics studio, textile and fashion studio, fine art studio and Mac studio, our creative faculty has amazing events throughout the year, where you can showcase your skills.

## WHAT WILL I LEARN?

- Virtual and augmented reality exhibitions
- Drawing and painting
- Ceramics and sculpting
- Art and science collaboration
- Digital transformation.
- Printing
- Digital illustration and graphics
- Textiles and fashion
- 2D and 3D animation
- Displaying work for exhibition
- Fine art
- Graphic design
- Planning and organisation
- Discipline.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Character designer  
Illustrator  
Fine art painter  
Graphic designer  
Interior designer  
Fashion designer  
Stage designer.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Applied Art and Design  
BA(Hons)Special Effects  
Make-up Design and Prosthetics  
Interior Design.

## COURSE OPTIONS

LEVEL	COURSE
Level 4	Art & Design Foundation Diploma

**The Art & Design Foundation Diploma leads naturally to degree- level study and prepares you for this. You can also opt to seek employment or apprenticeships within the industry if you so wish.**

The course has been designed to encourage exploration, experimentation and risk taking, which will extend your critical independence and enable you to demonstrate a full understanding of the relevant standards required to achieve progression into degree level study.

We're proud of our art school, as part of your studies you might even get the chance to take part in trips and visits abroad.

## WHAT WILL I LEARN?

- Digital transformation
- Design
- Fashion & textiles
- Fine art
- Research skills
- Experimental & traditional practices
- Art theory
- How to read and analyse images
- Self-expression
- Illustration.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Graphic design  
Fine art  
Fashion  
Fashion marketing  
Fashion styling.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Applied Art & Design  
BA (Hons) Special Effects  
Make-up Design and  
Prosthetics.

# BEAUTY THERAPY

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2	Beauty Therapy

**Working in the beauty industry is a great career choice with endless opportunities for development and variety within different job roles.**

During our courses you will have the opportunity to learn and perfect a variety of beauty treatments including manicures, pedicures, waxing, lash and brow treatments and facials.

The beauty salons here at Grimsby Institute are always a buzz with helpful clients who you can work with to perfect your skills; you can even book in your friends and family to practise your skills on! We have a well-established client base, but if there aren't any clients available you are able to practise on each other, so everyone has perfect nails and immaculate brows.

## WHAT WILL I LEARN?

- Presenting a professional image
- Health and safety
- Eyelash and eyebrow treatments
- Face and body massage
- Manicure and Pedicure
- Skincare
- Aromatherapy
- Microderm abrasion
- Make-up
- Reception duties
- Waxing.

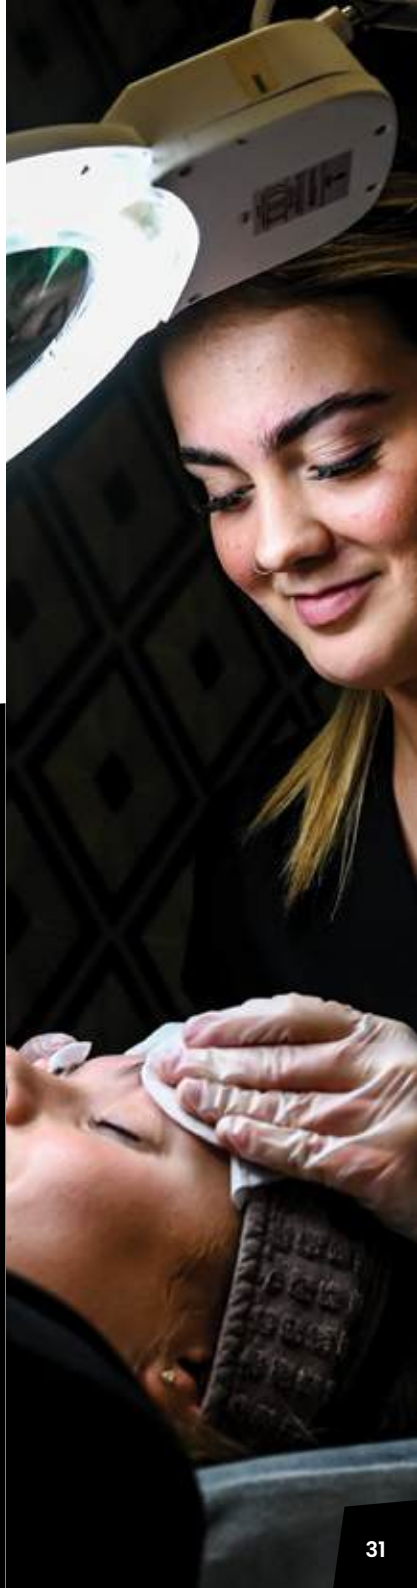

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Working in spa and leisure facilities  
Sport massage  
Working on cruise liners  
Beauty therapist  
Nail and eyelash technician  
Salon manager.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Special Effects Make-up Design and Prosthetics.

# BRICKLAYING

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2	Bricklaying

**With many of our teaching staff coming straight from industry, you can expect to learn from people who have first-hand knowledge of the sector.**

The workshop is always buzzing too, they really know how to combine learning a trade and having fun!

From site surveying, planning and measuring, to mixing cement, laying bricks and blocks to pointing, this course is really practical. Who knows, you might be able to build your own house one day!

## WHAT WILL I LEARN?

- Building in formation modelling
- Low carbon construction
- Conducting site surveys
- Planning
- Precise measuring and accuracy
- Mixing cement and mortar
- Laying bricks
- Laying breeze blocks
- Pointing
- Problem solving
- Working to deadlines
- Teamwork
- Communication skills.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Bricklayer  
House builder  
Restoration work  
Property developer.

### UNIVERSITY AND FURTHER STUDIES:

HNC/HND Construction.

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Business & Enterprise

**Everything you need to know about business and enterprise you'll learn on our courses, giving you a sturdy foundation for your future within the world of work.**

Your favourite vloggers and Instagram celebs will have a business team behind the scenes, telling them how it's done. It really is a great career that offers transferable skills across any sector and industry! After learning the foundation of business and enterprise you'll move onto the nitty-gritty of the law behind business, human resources and management skills and so much more.

You will learn how to manage the day-to-day challenges of setting up and running a business, including business planning and pitching, financial planning and implementation, as well as future business growth and performance analysis.

## WHAT WILL I LEARN?

- Pitching a new business
- Project management
- Communication
- Research
- Customer service skills
- Exploring business
- Developing a marketing campaign
- Personal and business finance
- Managing an event
- Digital marketing.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Accountant management consultant  
Social media manager  
Administration  
Marketing  
Human resources.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Business Management with Accounting  
BA (Hons) Business Management with Marketing.

# CARPENTRY & JOINERY

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Carpentry & Joinery

**Timber is an important part of any structure; and carpenters and joiners prepare the wooden parts of a building. Usually, a joiner will work from plans to prepare the materials; the carpenter then puts them in position.**

During your course you will learn a host of valuable carpentry and joinery skills including using hand tools, working from plans, preparing and installing floorboards, joists and window frames and much more.

As you progress through the course levels, you will have the opportunity to perfect both your carpentry and joinery skills, providing you with a sturdy foundation for future employment.

## WHAT WILL I LEARN?

- Health and safety
- Use of hand tools
- Measuring and accuracy
- Quantifying material
- Teamwork
- Communication
- Problem solving
- Time management
- Creativity
- Working from plans
- Creating and preparing
- Floor boards, joists, window frames and more.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Site joiner  
Workshop joiner  
Self-employed joiner  
Kitchen fitter.

### UNIVERSITY AND FURTHER STUDIES:

HNC/HND Construction.

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Childcare

**On our childcare and education courses, you will develop your knowledge on a range of topics to help build up your confidence as well as helping children learn in a childcare setting.**

Some of the units you will study include healthy eating, safety, craft activities, psychology and learning through play.

There are so many opportunities in childcare. Many students have gone on to work with children in nurseries, classrooms, as teachers or special educational need support staff and even as personal nannies for families.

You will learn exciting and innovative skills in childcare and education in a state-of-the-art nursery and sensory room environment.

## WHAT WILL I LEARN?

- Listening and observation
- Communication
- Teamwork
- Development and Imagination
- Numeracy and literacy
- Planning lessons
- Problem solving
- Organisation
- Leadership
- Health and safety.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Nanny  
Teacher  
Nursery nurse  
Childcare assistant  
Classroom support worker  
Nursery assistant.

### UNIVERSITY AND FURTHER STUDIES:

FdEd Early Childhood Studies  
FdA Children, Young People & Families.

## COURSE OPTIONS

LEVEL	COURSE
Level 3	Level 3 Diploma in Criminology, A Level Sociology, BTEC Law

**This course will give you the knowledge on how society and the law work together. It will help you answer the question: Are you born a criminal? Why do people reoffend? Does rehabilitation work? What shapes us to be law abiding citizens? While gaining the analytical and evaluative skills needed to progress onto university, apprenticeship or employment.**

You will learn the relevant knowledge and skills required to apply key theories in criminology and sociology to real case studies of serial killers and world famous criminals that have shaped British history. Applying the law to case studies to help you understand how and why people are found guilty in a court of law and the skills required to work in the industry. You will also learn about our education system, class and employment system that shapes your life.

## WHAT WILL I LEARN?

### Criminal law:

- Family law/ corporate law/contract law
- Dispute solving in civil law
- Applying the law

### Sociology:

- Family and households
- Education
- Culture and identity
- Research methods and methods in context

### Criminology:

- Media representation of criminals
- Criminal investigation and collection of evidence
- Theories and reasons for criminality
- Court Trials

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Psychology  
Criminology  
LLB law  
Policing  
Law and criminology  
Law and policing  
Sociology  
Education and teaching

### UNIVERSITY AND FURTHER STUDIES:

Higher apprenticeships in law, policing and more  
Education  
Social Policy  
Government and council  
Social work  
Police

## COURSE OPTIONS

LEVEL	COURSE
Level 3	Extended Diploma in Forensic and Criminal Investigation

**This practical course gives you both the knowledge and experience of crime scene investigation as well as the practical laboratory skills used to analyse forensic evidence.**

You will learn a range of skills which will enable you to work in crime scene investigation, police, forensic psychology, criminology, forensic anthropology & archaeology, fire investigation, genetics, microbiology and biomedical sciences.

You will work in a bespoke forensic science laboratory, our new Crime Scene Studio and outdoor crime scene facilities using current scientific procedures, forensic recording & preservation equipment and real human skeletons. You will also hear from guest speakers from across the industry and specialist areas sharing their wealth of experience and knowledge with you.

## WHAT WILL I LEARN?

- Science concepts in biology, chemistry & physics as well as scientific investigation
- Quantitative laboratory techniques
- Examination, record, collection & preservation of crime scenes
- The legal framework, criminal law and techniques used during criminal investigation
- Collecting and analysing entomological, soil, pollen and diatom evidence
- Behaviour of fire, and the processes and personnel involved in the investigation of a fire scene
- Heredity and genetic engineering and their application to forensic science
- Techniques used to recover buried human remains and identify them.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Police  
Crime scene investigation  
Forensic expert specialists  
Forensic psychology  
Science industry  
Science technician

### UNIVERSITY AND FURTHER STUDIES:

Forensic science  
Forensic psychology  
Criminology  
Police studies  
Forensic anthropology and archaeology  
Biomedical science

## COURSE OPTIONS

LEVEL	COURSE
Levels 2, 3	Computing

### Are you passionate about technology and eager to pursue a career in the dynamic field of Information Technology?

Our courses are designed to equip you with the essential knowledge, practical skills, and industry relevant expertise demanded by today's IT sector, especially within the local and surrounding areas.

Whether you dream of becoming a software developer, network administrator, web designer, or IT support specialist, this course will lay a solid foundation for your future success, this will also create the opportunity for further progression at degree level study.

## WHAT WILL I LEARN?

- Information technology systems
- Creating system to manage information
- Programming
- Website development
- Computer games Development
- Using social media in business
- Cyber security and incident management
- IT service delivery
- IT project management
- Mobile application Development
- Digital 2D and 3D graphics
- Enterprise in IT.

## WHAT NEXT?

### CAREER OPPORTUNITIES

IT support technician  
IT project manager  
Cyber security specialist  
Software developer  
Software engineer  
Web designer and developer  
Game designer  
App developer  
Network developer.

### UNIVERSITY AND FURTHER STUDIES:

BSc (Hons) Digital and Technology Solutions.

**REAL  
WORLD** ***READY***

## COURSE OPTIONS

LEVEL	COURSE
Level 3	Construction Management

### Learn all about the design and project delivery side of the construction industry with our Construction Management course.

This course provides all the skills you will need for a future in construction. It covers elements of science, mathematics and computer-aided design and building information modelling, creating the ideal stepping stone for you to further develop your skills at university level.

With the government delivering 300,000 new homes a year, there is plenty of work within the construction field.

## WHAT WILL I LEARN?

- Building information modelling
- Low carbon construction
- Surveying
- Project management
- Report writing
- Building Information Modelling
- Maths
- Science
- Critical thinking
- Communication
- Property law
- Technology of buildings
- Building regulations
- Computer-aided design.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Civil engineering  
Building maintenance  
Architecture  
Urban and town planning.

### UNIVERSITY AND FURTHER STUDIES:

HNC/HND Construction  
Bachelors Degree  
Professional body membership.

# ELECTRICAL INSTALLATION

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3*	Electrical Installation

\* Level 3 for progression only

### If you're curious about the inner workings of electrical systems, these courses will give you all the answers you need and more!

You will develop an understanding of how to wire your average light fitting right through to teaching you about the renewable energy sector.

You'll also gain the knowledge to build systems on your own and could even go on to be a freelance electrician or electrical installation contractor. From learning how to wire basic sockets, to more complex lighting circuits and fire alarm systems under the watchful eye of our fully qualified and industry experienced teachers.

## WHAT WILL I LEARN?

- Renewable energy
- Circuits and electrical systems
- Cable fitting and wiring
- Battery Storage systems and EV charging design and installation
- Maths
- Project management (scheduling)
- Communication
- Critical thinking
- Teamwork
- Problem solving

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Wind turbine operative  
Industrial, commercial or domestic electrician  
Solar panel installer  
PAT testing technician.

### UNIVERSITY AND FURTHER STUDIES:

HNC/HND Construction  
HNC Electrical and Electronic Engineering.

## COURSE OPTIONS

LEVEL	COURSE
Levels 2, 3	Engineering

**Our courses are a combination of theory and practical, with all sorts of interesting equipment for you to get your hands on.**

You will cover modules in multi-skilled engineering, teaching a variety of skills which helps you and your tutors decide whether electrical or mechanical engineering would suit you best. Your subjects will typically include engineering, maths, science, machining, fitting and maintenance.

Work placements will be arranged to get a taste of what it's like to work in engineering. Our teaching staff are from a diverse range of engineering backgrounds to support your learning.

## WHAT WILL I LEARN?

- Interpreting technical drawings
- Computer-aided design
- Coordinating and planning
- Machining
- Fitting and maintenance
- Hand forging
- Fluid mechanics
- Carbon awareness and energy management
- Safe operation of lathes
- 3D printing
- Robotics
- Maths
- Science.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Electrical engineer  
Wind turbine technician  
Electrical design engineer  
Metal working production.

### UNIVERSITY AND FURTHER STUDIES:

HNC Mechanical Engineering  
HNC/HND Electrical & Electronic Engineering.

## COURSE OPTIONS

LEVEL	COURSE
Levels 2, 3	Esports

### Esports is organised competitive computer gaming and is worth millions of pounds, supporting many jobs roles.

This qualification is about the business of Esports as well as the skills, strategies and analysis of the actual games.

During this course you will look at entrepreneurship in the industry, as well as health, wellbeing and fitness for those who play Esports. The business of putting on events will also be studied.

You will also explore the physical and financial skills to excel in this sector.

## WHAT WILL I LEARN?

- New age marketing
- Introduction to Esports
- Esports strategies, skills & analysis
- Business and enterprise
- Nutrition
- Health and wellbeing
- Coaching
- Finance
- Teamwork
- Creativity.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Team coaching  
Esports playing  
Shout casting and presenting  
Social media influencing  
Video production editing  
Data analyst.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Game Design (Game Art) or (Game Development)  
FDA TV Production  
BA (Hons) Business Management with Marketing

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3*	Fabrication & Welding

\*Level 3 for progression only

**During your course you will be introduced to a variety of fabrication and welding techniques such as GMAW (MAG), GTAW (TIG), FCAW and SMAW (MMA) (don't worry, you'll know the difference once you have finished).**

Our Fabrication and Welding curriculum area offers a huge workshop with a variety of the most up-to-date industry standard equipment, meaning you will have a head start should you choose this as a career path.

We work closely with worldwide supplier Lincoln Electric and will be offering the opportunity to train on leading welding machines called a Powerwave 300c.

You'll also be shown the ropes by your tutors with a background in the industry and recent experience in the trade.

## WHAT WILL I LEARN?

- Health and safety
- Pattern and development
- Materials technology
- Interpreting technical drawings
- Cutting, forming and metal
- AW (MAG), GTAW (TIG), FCAW and SMAW (MMA) welding techniques
- Safe working practices
- Equipment maintenance
- Time management
- Communication
- Fabrication in a range of materials and thickness
- Project management.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Sheet metal worker  
Welder  
Blacksmith  
Plater  
Pipe fitter  
Welding inspector  
Steel erector.

### UNIVERSITY AND FURTHER STUDIES:

HNC/HND in Construction  
HNC Mechanical Engineering.

## COURSE OPTIONS

LEVEL	COURSE
Levels 2, 3	Games Design

**During this course you will develop the knowledge you need to prepare for a future in games design, including digital graphics, games platforms, designing games stories, 3D modelling and even animation.**

You'll also learn about 3D graphics and applications, which could lead to a job in product design, or maybe you'll feel inspired and explore animation as a future career path.

Whichever path you decide to choose, Grimsby Institute will make sure you are ready for the future in one of the fastest-growing industries worldwide.

## WHAT WILL I LEARN?

- Creative problem solving
- Character analysis
- Digital graphics
- Designing games stories
- Web development
- Building 2D & 3D games
- 2D concept art
- Digital art programming
- UI/UX design
- Game narrative design
- Communication
- Teamwork.

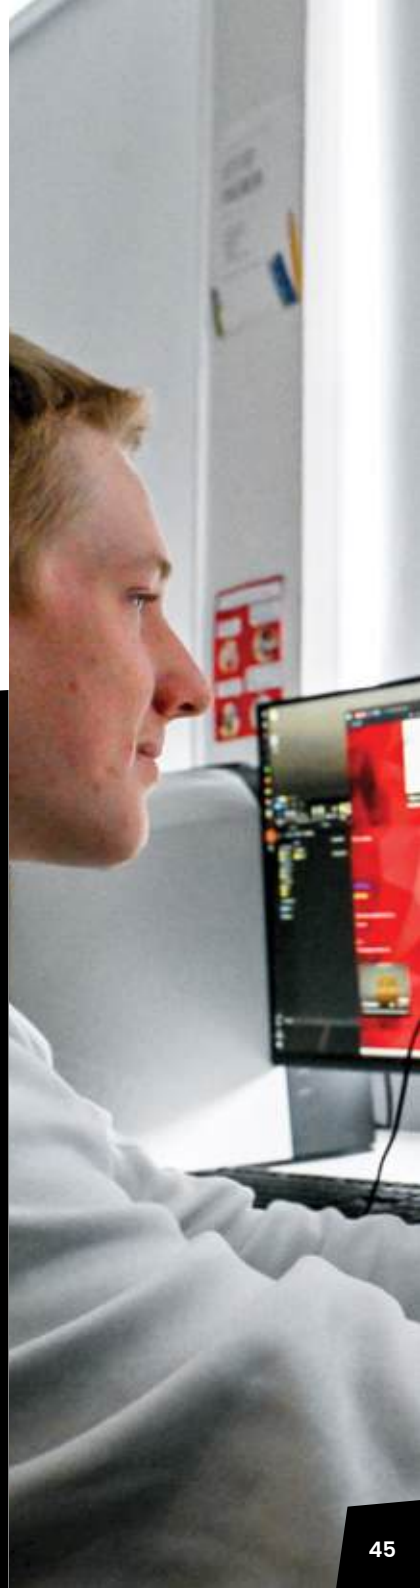

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Games designer  
2D/3D artist  
Programmer  
Mixed reality developer  
App developer.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Game Design  
(Game Art)  
Software development  
Creative writing  
Computer science for  
games digital media  
production.

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3*	Hairdressing & Barbering

\*Level 3 for progression only

**In this subject area you will discover what it is really like to work in a real working salon environment. We will provide you with the skills to perform a variety of services.**

To further enhance your skills, you will participate in college competitions to showcase your skills in creating a hair and beauty image.

The Graduate Salon is our industry standard working salon, where you will train and perfect your skills. You will have access to real clients to work with. If you've got a passion for hair and creative flair, you'll be great on this course. You'll learn all the skills you need to work in a salon or even start your own business!

## WHAT WILL I LEARN?

- Presenting a professional image
- Health and safety in the salon
- Cutting
- Perming
- Bridal styles
- Styling women's hair
- Colouring
- Reception duties
- Shampoo and conditioning.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Hairdresser in a salon  
Salon manager  
Freelance hairdresser  
Cruise liner  
Leisure industry  
TV and film stylist

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Special Effects  
Make-up Design and  
Prosthetics.

# HAIR & MEDIA MAKE-UP

## COURSE OPTIONS

LEVEL	COURSE
Levels 2, 3	Hair & Media Make-up

**On this course you'll develop the skills you need to progress into work as a make-up artist for film, TV and theatre.**

The course is really practical, you get to try your skills out on fellow students or bring in a friend who you want to glam up or turn into an alien!

You'll develop the skills needed to apply specialist make-up and artificial hair for different audiences, and create full character looks from make-up to hair and costume, by combining the different skills and techniques that you have picked up along the way! We also have a brand new hair and make-up specialist room for you to get first hand experience in the trade.

## WHAT WILL I LEARN?

- Body art design
- Applying camouflage
- Photographic and airbrush make-up
- Eyelash and brow treatments
- Tanning
- Creating full character looks
- Anatomy and physiology
- Costumes
- Historical make-up.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Make-up artist for TV, film or theatre  
Make-up artist  
Camouflage make-up specialist  
Session stylist  
Media make-up artist.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Special Effects  
Make-up Design and  
Prosthetics.

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Health & Social Care

**There is so much to learn about people in order to properly understand how to care for and support them.**

As part of your course you will learn a variety of practical skills including studying life stages, psychological perspective and human anatomy and physiology, providing you with everything you need to understand and care for both adults and children. You will also learn about equality, diversity and rights in care work, professional values, planning and supporting and protecting adults.

If you have a passion for helping people and an interest in working in the health and social care sector, then this subject area is for you.

## WHAT WILL I LEARN?

- Science
- Safeguarding
- Personal care
- Caring for adults and children
- Life stages
- Physiological disorders
- Physiology
- Equality and diversity
- Professional values
- Supporting and protecting adults
- Anatomy.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Nurse  
Midwife  
Ambulance care assistant  
Physiotherapist  
Social worker  
Home carer.

### UNIVERSITY AND FURTHER STUDIES:

FdSc Assistant Practitioner  
- Health and Care  
FdA Social Care  
BA (Hons) Integrative  
Counselling  
Physiotherapy  
Psychology.

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3*	Hospitality & Professional Chef

\*Level 3 for progression only

### Find your style with our hospitality and professional chef courses, which will give you the foundations to develop your skills in the kitchen.

It's not just about cooking; you will also have the chance to be trained in front-of-house roles.

Alongside training in everything from fish, meat and poultry to baking, patisserie and cake decorating, you'll be given the opportunity to be part of our team, giving first-class service and food from our state-of-the-art facilities. This includes the training kitchen which will be used to produce dishes for our newly refurbished Samphire Restaurant, our esteemed commercial training establishment where our students showcase their culinary talents.

Delight in meals prepared by Lincolnshire's finest emerging chefs and enjoy high-class service from our future front-of-house stars. Experience dishes made from the highest quality local ingredients, including renowned seafood from the historic docks.

## WHAT WILL I LEARN?

- Patisserie skills
- Food hygiene
- Presentation of dishes
- Taking restaurant bookings
- Customer service
- Table service
- Food preparation and cooking in different styles
- The basics of steaming, frying, baking and roasting
- Front-of-house services
- Teamwork
- Communication
- Creativity.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Chef  
Restaurant manager  
Waiting staff  
Catering manager  
Food scientist  
Food product development.

### UNIVERSITY AND FURTHER STUDIES:

FdA Events Management  
Food Technology and Development.

## NEW FOR 2025

**Grimsby Institute has launched an exciting new seafood school project, set to revolutionise culinary education and support the region's vital seafood processing cluster. Grimsby processes approximately 70% of the UK's seafood, contributing more than £1.5bn to our region.**

The new seafood school offers a comprehensive curriculum, led by expert chefs and seasoned professionals, encompassing sustainable fishing practices, fish sourcing, and new product development. Students dive into the diverse world of seafood, learning to identify, source, and prepare a vast array of ocean delicacies.

Hands-on sessions take place in state-of-the-art kitchens, equipped with the latest tools and technologies, providing an immersive learning experience. From filleting fish to creating new seafood products, students gain invaluable skills under the guidance of industry specialists.

Sustainability is a cornerstone of the seafood school. Courses in sustainability will teach you the importance of ethical sourcing and environmental stewardship. Collaborations with local fishermen and marine conservation initiatives will enable you to engage in efforts to protect our oceans while mastering your craft.

By aligning its curriculum with the needs of Grimsby's seafood processing cluster, the seafood school aims to support this critical industry, ensuring a steady pipeline of skilled professionals. Combining tradition, innovation, and sustainability, the UK Seafood School - Grimsby prepares the next generation of culinary leaders to excel in the vibrant world of seafood and contribute to the region's economic vitality.

## COURSE OPTIONS

LEVEL	COURSE
Level 1	Media with Computing, Games Design, Photography & Graphics
Level 2	Media
Level 3	Media – TV and Film Production

**Media production and consumption is rapidly changing, students on our courses are developing products and technologies that allow audiences to control and change what they're viewing.**

Level 1 Introductory Diploma in Digital Media is our foundation course that facilitates the first year of college for students who may not have achieved the entry grades required for Level 2 or Level 3.

Our courses are designed to give you experience in digital project creation, web development, and photographic and video work as an introduction to digital working practice.

## WHAT WILL I LEARN?

- Communication
- Creative media production
- Project management
- Working with clients
- Drone operation
- After Effects skills
- Understanding on set etiquette
- Video production
- Photography
- Web development
- Content creation
- Research Adobe software
- Teamwork
- Problem solving.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Video editor  
Art director  
Publishing  
Production coordinator  
Production management  
Content creation  
Photographer.

### UNIVERSITY AND FURTHER STUDIES:

BA(Hons) Digital Film Production.

# MOTOR VEHICLE: LIGHT VEHICLE MAINTENANCE & REPAIR PRINCIPLES

## COURSE OPTIONS

LEVEL	COURSE
Entry Level	Motor Vehicle: Light Vehicle Maintenance & Repair Principles
Levels 1, 2, 3*	Motor Vehicle: Light Vehicle Maintenance & Repair Principles

\*Level 3 for progression only

**Our Motor Vehicle provision is really practical, supported with theory elements to back-up your knowledge base.**

All our courses focus on the future, including carbon awareness and electric and hybrid vehicle maintenance, operation and replacement offering hi-tech equipment to train and prepare you for employment.

We have many links with industry employers who will visit the campus throughout your course, providing you with valuable insights into the motor vehicle trade.

As a further bonus, this subject area offers the opportunity for work experience and the right candidate could even be selected for an Apprenticeship.

## WHAT WILL I LEARN?

- Health, safety & housekeeping
- Materials, fabrication, tools and measuring devices
- Identifying customer service needs
- Routine light vehicle maintenance
- Removing and replacing light vehicle engine, electrical, chassis units, driveline units and components
- Overhauling light vehicle engine mechanical, transmission, steering and suspension units
- Removing and fitting, electrical and trim components and non-permanently fixed vehicle body panels
- Diagnosing mechanical and electrical faults.

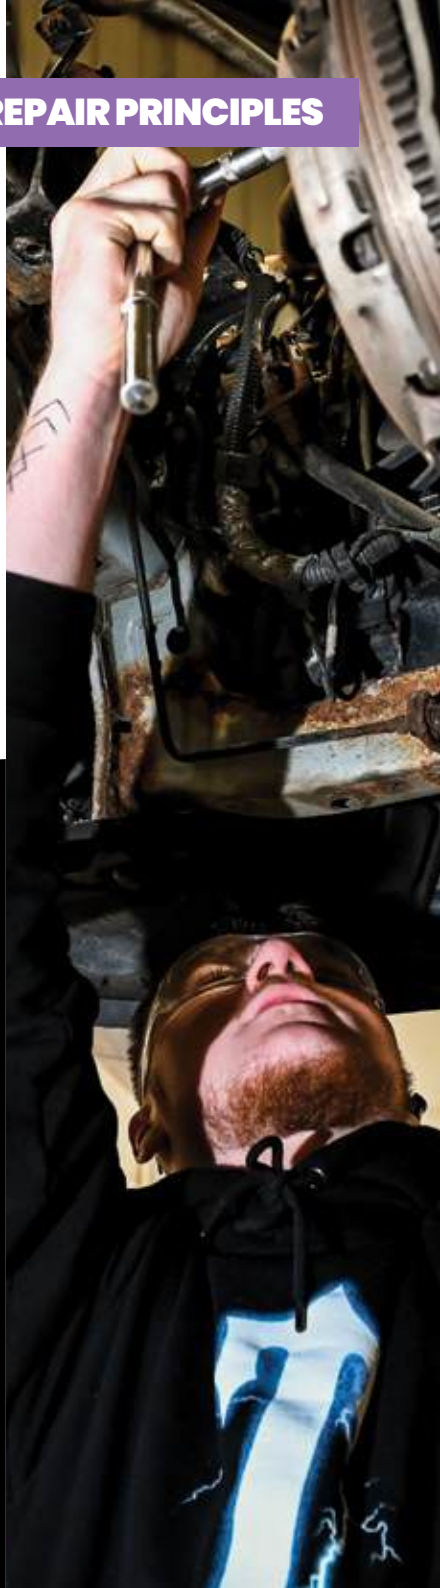

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Garage managers and proprietors  
Vehicle technicians, mechanics and electricians  
Vehicle body builders and repairers  
Vehicle paint technicians  
Tyre, exhaust and windscreen fitters.

### UNIVERSITY AND FURTHER STUDIES:

Electric and Hybrid technologies, maintenance and repair  
HNC Mechanical Engineering  
Motorsport engineering  
Automotive engineering.

# MOTOR VEHICLE HEAVY VEHICLE MAINTENANCE & REPAIR PRINCIPLES

## COURSE OPTIONS

LEVEL	COURSE
Levels 2, 3*	Motor Vehicle: Heavy Vehicle Maintenance & Repair Principles

\* Level 3 for progression only

**The Motor Vehicle course is mainly practical, with theory elements which will help to back up your projects.**

All our courses focus on the future, including carbon awareness and electric and hybrid vehicle maintenance, operation and replacement offering hi-tech equipment to train and prepare for employment. These courses have been designed to meet the needs of the Heavy Vehicle industry.

We have many links with industry employers who will visit the campus throughout the course, providing students with valuable insights into the motor vehicle trade.

## WHAT WILL I LEARN?

- Health, safety & housekeeping
- Materials, fabrication, tools and measuring devices
- Identifying customer service needs
- Routine heavy vehicle maintenance
- Removing and replacing heavy vehicle engine, electrical, chassis units, driveline units and components
- Overhauling heavy vehicle engine mechanical, transmission, steering and suspension units
- Removing and fitting, electrical and trim components and non-permanently fixed vehicle body panels
- Diagnosing mechanical and electrical faults.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Successful students have gone onto working in industry, including; Motor racing, Wind turbines, Plant/ Agricultural equipment and forklift engineering.

### UNIVERSITY AND FURTHER STUDIES:

If you are looking to further your study, you can apply to the Motorsports College, or the University Centre Grimsby to complete a HNC in Engineering.

# MOTOR VEHICLE ACCIDENT REPAIR & BODY

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3*	Motor Vehicle: Accident Repair & Body

\*Level 3 for progression only

**If you've ever dreamt about creating your own custom vehicle designs, then this subject area is for you!**

As well as learning painting techniques, you'll get the chance to repair vehicles in the accident repair centre, gaining hands-on industry experience. Our courses embed a good working approach, drawing from the knowledge and skills of the teaching staff, many of whom are from industry.

All our courses focus on the future, including carbon awareness and electric and hybrid vehicle maintenance, operation and replacement. Offering hi-tech equipment to train and prepare for employment.

As a student, you'll have the opportunity to go on trips; previous years students have gone to places like Birmingham NEC for competitions and events such as Autosport International and WorldSkills.

## WHAT WILL I LEARN?

- Vehicle maintenance
- Custom design
- Bodywork spraying and finishing
- Bodywork and accident repair
- Customer service skills
- Creativity
- Teamwork
- Communication.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Vehicle SMART repairer  
Vehicle paint sprayer  
Paint technician  
Body technician.

### UNIVERSITY AND FURTHER STUDIES:

Motorsport engineering  
Automotive engineering.

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Music

### Our music tutors are experts in their field and have a wealth of real industry experience.

They will support you to develop your working knowledge of the industry, from performance techniques and music technology to composition and the music business. You'll get to create your own album through our own recording label, White Box Studios, plus, established bands will come in to answer all your questions, and you'll get to see them perform.

With four industry standard digital recording studios equipped with the latest Pro Tools and Logic Pro X software, we are ready to help you record the next big hit!

## WHAT WILL I LEARN?

Level 1 includes music as well as performing arts, giving you the chance to experience both areas with a view to specialising at Level 2.

The Level 2 Music Practitioner qualification aims to equip you with the skills to develop realistic employment opportunities in the music industry, or to progress into higher education.

This subject area aims to effectively prepare you for study in music performance and production. The Level 3 Creative Music Industries course further develops skills in song writing, performance, production and more!

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Music producer  
Session musician  
Sound engineer  
Technician  
Teacher.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Music  
Production  
BA (Hons) Popular Music  
Performance

# PERFORMING ARTS

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Performing Arts and Music

**As a Revolution Theatre company member and Grimsby Institute student, you will take part in annual pantomimes, musicals and performances of a professional standard, developing skills in drama, dance, singing and musical theatre.**

You'll also learn about working within a theatre company, preparing you for life when you leave college.

This course will give you a solid foundation for working towards a career in performing arts, as well as an insight into the range of different jobs available to you within the industry. With visits from industry professionals as part of the programme, you'll learn everything you need to know for when the curtain rises on your career.

## WHAT WILL I LEARN?

- Performance in musicals, pantomimes and plays
- Drama
- Dance
- Singing and musical theatre
- Preparation for working in the industry
- Business skills
- Time management
- Teamwork
- Communication
- Planning.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Performer  
Director  
Presenter  
Choreographer.

### UNIVERSITY AND FURTHER STUDIES:

FdA Performing Arts  
Drama  
Theatre and performance.

## COURSE OPTIONS

LEVEL	COURSE
Levels 2, 3	Photography

**Our photography courses have been designed with industry to offer practical programmes where you will undertake creative projects tailored to your photographic interests. You will also have opportunities to network with clients within the photographic industry.**

The course is 100% coursework based, encouraging creative freedom and development of your personal creative visions.

You will study many different aspects of photography, including analogue practices (film) in our multi-grade darkroom, studio skills, industry practice involving live clients and a range of genres. Furthermore, you will explore avenues of presentation and digital printing, ultimately leading to your final year exhibition.

## WHAT WILL I LEARN?

- Photography
- Analogue photographic practice (film and darkroom)
- Digital photographic practice
- Studio photography
- Digital media
- Digital printing
- Industry skills
- Photographic experimental practices
- Commercial, fine art, documentary, fashion photography
- Publishing
- Editing skills.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Photographer  
Journalism  
Advertising  
Art director  
Publishing  
Photography assistant  
Forensic photographer.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons)  
Photography.

# PLASTERING

## COURSE OPTIONS

LEVEL	COURSE
Level 2	Plastering

**Plastering is an in-demand and rewarding career, offering a variety of opportunities. Plasterers can showcase their creativity and precision, making projects challenging, yet fulfilling.**

This course will allow you to learn, develop and practise the skills required for employment and/or career progression in the Plastering industry.

## WHAT WILL I LEARN?

- Preparing background surfaces and mixing plastering materials
- Applying scratch coats to internal backgrounds
- Fixing sheet materials
- Applying floating coats to wall
- Applying setting coats to wall
- Applying plastering materials to interiors
- Fixing dry lining and plasterboards to interiors
- Laying sand and cement screeds
- Applying plastering materials to external backgrounds
- Producing reverse moulds for fibrous work
- Casting and fixing fibrous plasterwork.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Residential and commercial Plasterer  
Decorative plasterer  
Plastering contractor  
Site supervisor/manager  
Self-Employed plasterer  
Maintenance operative

### UNIVERSITY AND FURTHER STUDIES:

HNC Construction

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3*	Plumbing

\*Level 3 for progression only

**This subject area is designed to provide students with a comprehensive understanding of the plumbing trade.**

Whether you are a beginner looking to start a career in plumbing or an experienced professional seeking to enhance your skills, this curriculum area offers the knowledge and practical training necessary to succeed in the field.

Our programmes follow industry standards and are taught by experienced instructors with a wealth of real-world expertise.

Topics covered include cold water supplies and systems, hot water, sanitation and drainage, central heating, scientific principles. Alongside key topics you will also develop key skills such as customer service communication, entrepreneurship and business management in plumbing.

## WHAT WILL I LEARN?

- Pipe joining techniques
- Water pressure
- Hot and cold water supplies
- Gas awareness
- Above ground drainage
- Air source heat pump system design and installation
- Project management
- Teamwork
- Problem solving
- Communication.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Industrial, commercial or domestic plumber  
Gas installer  
Boiler repair  
Renewable installations  
Industrial, commercial or domestic plumber  
Gas installer  
Boiler repair  
Renewable installations.

### UNIVERSITY AND FURTHER STUDIES:

Anglian Water pre apprenticeship Level 2 course  
HNC/HND Construction.

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Sport

**You will have the opportunity to learn about a wide variety of sports, methods of exercise and training during this course.**

Playing sports and training others will be something that you will be doing every day, whilst also spending time in the classroom learning about anatomy and physiology.

Depending on which programme you choose, you can gain extra qualifications such as first aid, coaching awards, safeguarding and personal training.

You will also cover a range of subjects suited for a career in the sports industry or for progression to university.

## WHAT WILL I LEARN?

- Coaching
- Rules and regulations of different sports
- Personal training
- First aid
- Physiology
- Nutrition
- Sports injuries and therapy
- Organising events
- Safeguarding
- Discipline
- Taking responsibility.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Teaching  
Coaching  
Sports science  
Personal training  
Sports therapy  
Nutrition  
Sports psychology  
Performance analysis.

### UNIVERSITY AND FURTHER STUDIES:

Football coaching and youth development  
Sports science.

## COURSE OPTIONS

LEVEL	COURSE
Level 3	Football Performance Programme

**The Football Performance Programme (FPP) aims to provide talented young players with the opportunity to continue their development as footballers in a full-time elite environment.**

This unique programme allows young footballers to enhance their education and employment prospects within the football and sport industry while receiving professional football training and competing in the English Colleges football league.

The FPP offers access to top tier football training typically available only at professional clubs. The programme is designed to complement, not replace, players' existing club commitments. The focus is solely on football development through structured training sessions, performance analysis, and competitive fixtures.

## WHAT WILL I LEARN?

- Professional Training Techniques: Receive UEFA 'A' standard training and game management
- Football Training: Participate in 8 hours per week of intensive football training
- Strength & Conditioning: Engage in 2 hours per week of football-specific strength and conditioning
- Individual Training Plans: Develop personalised training plans tailored to individual needs
- Performance Analysis: Utilise GPS and video feedback to improve performance
- Competitive Play: Compete in English Colleges fixtures for both the 1st Team and Development Team
- Skill Development: Enhance skills through in-house head-tennis and 5-a-side tournaments.

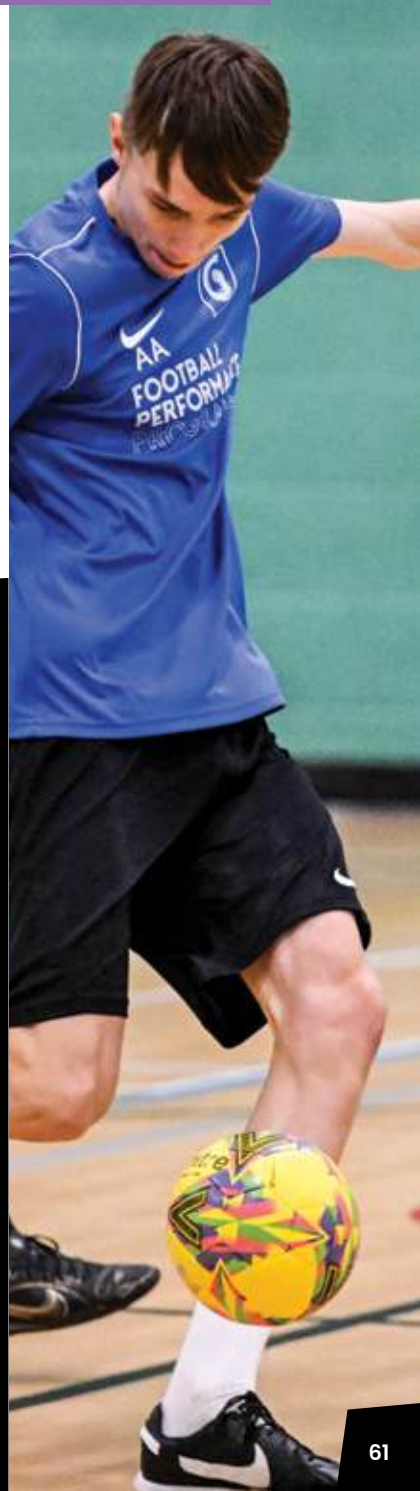

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Professional footballer  
Football coach  
Sports analyst  
Strength & conditioning  
Coach  
Football scout  
Sports manager  
Sports therapist

### UNIVERSITY AND FURTHER STUDIES:

Sport science degrees  
Coaching and management courses  
Physiotherapy and rehabilitation  
Sports psychology  
Business and sports management  
International scholarships  
FA coaching.

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Travel & Tourism

**In this curriculum area you will get to learn about the industry, covering everything from customer service, marketing and event planning to leisure and tourism.**

We are the only college in North East Lincolnshire to feature a plane interior that you get to use to carry out full flight procedures, from serving from the trolley to the safety drill, equipped with all the equipment that a usual demonstration would have.

There's also a travel agent's desk so you can get a real feel for what it's like to work in the travel and tourism business. You get to train as if you're already in the job.

## WHAT WILL I LEARN?

- Event planning
- Cabin crew procedures
- Marketing
- Airlines and airports
- Retail
- Customer service
- Geography
- Travel agency work
- Principles of the travel industry
- Research skills
- The future of travel and tourism
- Teamwork
- Communication.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Travel agent  
Cabin crew  
Tour operator  
Aviation operations  
Hotel management  
Tourist attraction management.

### UNIVERSITY AND FURTHER STUDIES:

FdA Tourism Management.

# T LEVEL – BUILDING SERVICES FOR CONSTRUCTION ELECTROTECHNICAL ENGINEERING

**T-LEVELS**  
THE NEXT LEVEL QUALIFICATION

**This exciting new T Level is suitable for anyone wanting a career in construction, specifically in areas such as electric installation and maintenance, plumbing or heating.**

In addition to the core content, you will have the opportunity to study in one of the following occupational specialisms:

## **WHAT WILL I LEARN?**

This pathway will give you the skills and knowledge to enable you to undertake fundamental electrotechnical systems, engineering processes and procedures. You will have the opportunity to plan, perform and evaluate your work while using a range of materials, methods and techniques.

### **You will develop their knowledge, understanding and skills in:**

- Health and safety practices associated with carrying out electrotechnical systems engineering
- Installation methods and termination of connections
- Systems and products used in electrotechnical engineering
- Analysing and using information to and from electrotechnical systems
- Removal processes as part of system decommissioning.

## **REFRIGERATION ENGINEERING AND AIRCON ENGINEERING:**

This pathway will give you the option to learn about and undertake fundamental refrigeration and air conditioning work. You will have the opportunity to plan, perform and evaluate your work while utilising a range of materials, methods and techniques.

### **You will develop their knowledge, understanding and skills in:**

- Installing, commissioning and maintaining refrigeration and air conditioning systems
- The hazards, health and safety and environmental requirements when working on a refrigeration and/or air conditioning system
- Identifying and selecting the correct tools and equipment for a specific task
- Fabricating pipe work and pressure testing a refrigeration system to ensure it is leak-free
- Fault-finding mechanical and electrical problems in refrigeration and air conditioning systems.

# T LEVEL – DIGITAL PRODUCTION DESIGN AND DEVELOPMENT

**T-LEVELS**  
THE NEXT LEVEL QUALIFICATION

**This is a two-year qualification which will include core content and an occupational specialism content that is specific to the industry.**

One of the great things about this course is that you will work directly with employers and spend 20% of the course in a work environment.

By the end of the course, you will have a portfolio of work at a professional standard.

This course is suitable for anyone wanting a career in software production and design. Students can progress into roles such as web developer, web designer, IT business analyst, app developer or digital marketer.

**The core component of study provides a broad understanding of the digital industry and covers the following digital related topics:**

- Problem solving
- Programming
- Emerging issues and impact of digital IT-related legislation
- Business context
- Data
- Digital environments (networking and PC builds)
- Cyber security
- Testing.

The occupational specialism content will allow you to develop the relevant skills in preparation for your career in the digital industry. The occupational specialism is assessed through an industry-standard software development project based on a provided client brief.

**Throughout the occupational specialism you will learn how to do the following:**

- Propose solutions by defining requirements and acceptance criteria aligned to user needs
- Design interfaces, data storage and algorithms required for a proposed solution
- Develop complete bespoke systems to meet business needs using a multitude of programming languages including HTML, CSS, JavaScript, PHP and SQL.
- Gather user feedback to inform a written evaluation of the project.

## T LEVEL - EDUCATION AND CHILDCARE

**T-LEVELS**  
THE NEXT LEVEL QUALIFICATION

**This course is suitable for anyone wanting a career in early years education, teaching, childcare or assisting teaching.**

You can progress into roles such as nursery worker, special educational needs teaching assistant, teaching assistant or learning mentor or go onto university to become a teacher. During the two year course, you will learn the core knowledge and skills that underpin many jobs in early years education, childcare and teaching. A substantial industry placement with a range of childcare employers will give you a wide understanding across the age ranges.

**The T Level in Education and Childcare will include:**

- Overview of childcare and education 0–19
- Child development
- Supporting education
- Safeguarding, health and safety and wellbeing
- Behaviour
- Observation and assessment
- Equality and diversity
- Special educational needs and disability
- English as an additional language
- Parents, families and carers
- Working with others
- Reflective practice.

**The core content is assessed through an exam and a practical employer set project. In addition to this, you will have the option to study one of the following specialisms:**

- Early years education and childcare
- Supporting and mentoring students in further and higher education.

## T LEVEL - HEALTH

**This exciting T Level in Health will give you the essential knowledge and skills to work in health or science.**

This includes; how the industry works, core scientific concepts and key regulations including managing information, health and safety and good scientific/clinical practice.

In your second year, you will focus on Adult Nursing Care.

## **The Manufacturing Technologies T Level is suitable for anyone wanting a career in manufacturing.**

During the two year course, you will learn the core knowledge and skills that underpin many jobs in manufacturing. A substantial industry placement with a range of employers will give you a wide understanding of the industry.

The technical qualification is made up of two components, all of which need to be successfully achieved to attain the technical qualification as well as the full T Level Technical Qualification in Engineering, Manufacturing, Processing and Control (Level 3).

Core content has been designed to give sufficient knowledge and skills for you to apply in a variety of contexts related to the engineering industry and the occupational specialisms linked to this T Level.

The common core content is the building blocks of knowledge and skills that will give you a broad understanding of the industry and job roles. At the same time, it will develop the core skills you will need to apply when working within the industry.

The occupational specialism component (Fabrication & Welding) will develop the knowledge, skills and behaviours necessary to achieve threshold competence in an occupation. Threshold competence is defined as when a student's attainment against the knowledge, skills and behaviours is of a standard for you to enter the occupation and industry. You must also demonstrate the ability to achieve occupational competence over time with the correct support and training. The core content is assessed through an exam and a practical employer set project.

# T LEVEL – ONSITE CONSTRUCTION (BRICKWORK)

**T-LEVELS**  
THE NEXT LEVEL QUALIFICATION

**This T Level in Onsite Construction is suitable for anyone looking to start a career in the construction industry.**

Following this T Level, you could progress straight into a skilled profession or continue your studies with a degree or higher apprenticeship. Career options might include becoming an advanced site carpenter or joiner, or a construction assembly and installation operative.

During the two-year course, you will learn the core knowledge and skills that underpin many jobs in construction. A substantial industry placement with a range of employers will give you a wide understanding of life on a construction site.

## **THE T LEVEL IN ONSITE CONSTRUCTION WILL INCLUDE:**

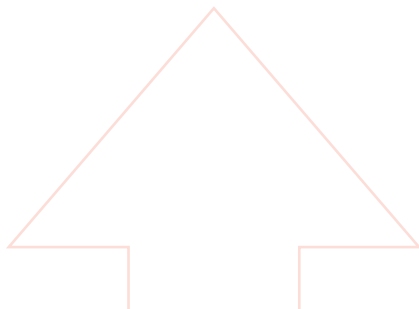

- Design principles
- Project management
- Health and safety
- Commercial construction
- Stake holder management
- Business structures
- Entrepreneurship
- Digital technology
- Innovation
- Sustainability.

**The core content is assessed through an exam and a practical employer set project. This knowledge will provide students with a greater understanding of the industry and will promote career progression. In addition to this, you will have the option to study one of the following specialisms:**

- Carpentry and joinery
- Bricklaying

The specialisms will focus more on the practical application of skills.

Additionally, you will undertake the CSCS card scheme, to support your development within the workplace.

## **The Maintenance Engineering Technologies T Level is suitable for anyone wanting a career in engineering and manufacturing.**

This qualification will include a core content and an occupational specialism that is specific to the industry.

During the two year course, you will learn the core knowledge and skills that underpin many jobs in engineering. A substantial industry placement with a range of employers will give you a wide understanding of the industry.

The technical qualification is made up of two components, all of which need to be successfully achieved to attain the technical qualification as well as the full T Level Technical Qualification in Maintenance, Installation and Repair for Engineering and Manufacturing..

The common core content is the building blocks of knowledge and skills that will give you a broad understanding of the industry and job roles. At the same time, it will develop the core skills you will need to apply when working within the industry.

An Occupational Specialism component (Mechanical, Mechatronic or Light & Electric Vehicles) which will develop the knowledge, skills and behaviours necessary to achieve threshold competence in an occupation. You will also need to demonstrate the ability to achieve occupational competence over time with the correct support and training.

The core content is assessed through an exam and a practical employer set project.

# UNIFORMED PUBLIC SERVICES

## COURSE OPTIONS

LEVEL	COURSE
Levels 1, 2, 3	Uniformed Public Services

**The key areas you will focus on are teamwork, leadership and community engagement, as these are the skills needed to work effectively with other people in any job role.**

During your course, you will get some excellent work experience opportunities so you can see what it's like to be a member of the uniformed services. You will also work towards the Duke of Edinburgh's Award scheme. Some of these work experience situations involve placements in local youth organisations, schools and events with the RAF, Royal Marines and the Army.

You'll even get the opportunity to go on trips to places like Humberside Fire and Rescue, the Houses of Parliament and Nottingham Courts of Justice.

This course will allow you to learn many skills required by this industry, whether it is the Armed Forces, Emergency Services, or the Prison Service.

## WHAT WILL I LEARN?

- Teamwork
- Leadership
- Rules and regulations
- Problem solving
- Physical training
- Organising events
- Navigation skills
- Anatomy
- First aid
- Coaching
- Safeguarding
- Discipline
- Taking responsibility.

## WHAT NEXT?

### CAREER OPPORTUNITIES:

Armed forces  
Emergency services  
Local authority  
emergency planning  
Criminology  
Prison service  
Security industries  
Youth offender services.

### UNIVERSITY AND FURTHER STUDIES:

BA (Hons) Criminology  
Outdoor education  
Public services  
Sports science  
Professional policing.
